

The 6th Annual Health Insurance Conference for the year 2020

=====

Under the patronage of His Excellency Eng. Sultan bin Saeed Al Mansoori - Minister of Economy, Chairman of the Board of Directors of the Insurance Authority, and with the participation of 100 insurance experts, the sixth annual health insurance conference for the year 2020 was held in Dubai on 18/19 February 2020.

6th health insurance conference recommendations

- 1- Activating cooperation between insurance companies and those involved in the health insurance system to limit the high rates of treatment cost inflation.
- 2- Encouraging insurance companies and medical fleet management companies to develop and improve the quality of data exchange for medical compensation claims.
- 3- Urging all parties involved in the health insurance system to develop the electronic infrastructure to keep pace with the artificial intelligence revolution for the benefit of all parties.
- 4- The need to pay attention to the application and follow-up of the latest technological applications in the field of health insurance because of their effect on reducing medical expenses on the one hand and preserving the health of the believers.
- 5- The necessity of using modern tools that are concerned with monitoring the health status of the individual periodically, such as a watch that measures the level of pulse, pressure, calories burned, and so on.
- 6- The need to improve the loss rate ratios of insurance companies with regard to health insurance to continue supporting reinsurance companies to the local market.
- 7- The necessity of communication between insurance companies and health insurance management companies to reach a clear definition of misuse of insurance by some medical institutions and try to address it.
- 8- The best evidence of his effective role in health in Abu Dhabi and Dubai in providing health insurance in insurance.
